

The First AI Platform for Freight Forwarders

Quote faster. Win smarter. Run with precision.

Wisor is the first AI-powered operating system built by freight forwarders for freight forwarders. It is designed to automate and centralize every touchpoint across Air, Ocean, and land FCL and LCL shipments. From quoting to closing, Wisor drives speed, profit margins, and commercial clarity across your entire operation.

The Problem

Manual quoting consumes hours every day, while RFQs get lost in endless emails and spreadsheets. Slow responses lead to missed opportunities, with no clear visibility into what drives margins or win rates. Disconnected tools and workflows across teams only add to the chaos.

Wisor.ai Advantage

All-in-One AI Platform for Freight Success

All Modes. One Rate Hub.

Wisor centralizes Air, Ocean, and Land rates so teams quote faster—no spreadsheets, no chasing data.

Instant Quoting, Even Offline

Autogenerate door-to-door quotes from emails, portals, or agents—respond anytime, even offline.

AI-Optimized Pricing Engine

Balance win rate and margin with smart suggestions based on historical data and dynamic margin rules.

Automated End-to-End Workflows

Every step from rate fetching to quote creation to follow-up is streamlined and connected.

Your inbox, optimized for revenue.

Automatically ranks RFQs by margin—so you act fast and smart, without switching tools.

Centralized Sales & Finance Visibility

Track quotes, team performance, margin trends, and conversion rates—all in one unified dashboard.

Wisor Ignite – Your AI Revenue Co-Pilot

All-in-One Inbox

Manage quotes, RFQs, and client interactions in one place—no toggling.

Smarter, Faster Quoting

AI drafts quotes, prioritizes deals, and boosts RFQ response speed by 3x.

Real Results

Up to 300% more active deals, 90% quoting automation, and 35% more closed deals.

Who It's For

Sales, quoting, and commercial ops teams in freight, logistics, and supply chain who are ready to quote smarter and close faster.
